

Effective June 6, 2021
Safe Nursery Guidelines
Saint Andrews United Methodist Church

Cleaning the Room

Clean and sanitize FLC Room 1 before child arrival. (After May 27, this room will not be used except on Sunday mornings until the Fall). Clean and sanitize tables after each use.

Arrival

Parent will be asked to sign a form indicating no symptoms of illness or have child's temperature taken. This includes adults if they feel the need to come in for a 'gentle' drop off.

Children are asked to wash hands before becoming active in the classroom.

Parents use hand sanitizer before entering the room.

Masks

Staff and volunteers (at least two per class) should wear masks.

Parents should wear masks if entering the classroom.

Children 3 and over should wear masks.

Social Distancing

Social distance as much as able, but it may be difficult for children at this age.

Handwashing

Children will wash hands before and after eating and after restroom use.

Activities

Have individual bags of crayons and scissors assigned to specific children if used for Sunday School/Church projects.

If children bring their own snacks, staff should wash hands and wear gloves to help with this.
